

**Remarks**

Original Claims 1-43 were previously cancelled. Claims 44-72 are pending in the application. Claim 44 has been amended to remove the group  $N-R^7$  from the definition of W, X and Y. Claims 45-72 have previously been presented.

**The Restriction Requirement**

Applicants have been presented with a new set of restrictions drawn to three groups each relating to compounds and their pharmaceutical compositions and methods. Applicants elect for examination the invention of Group I. Claim 44 has been amended to conform to this group. Previously presented claims 45-72 are all directed to the invention of Group 1.

As done in the previous restriction requirement, applicants further elect the species where  $W = Y = O$ ,  $X = CH_2$ ,  $Z = CH$ ,  $R^1 = R^2 = R^3 = R^4 = H$ ,  $R^{13} = -CF_3$  in the 3-position, and  $n = 0$ . This species is compound 16 in Table 1, and is named 2H-benzo[3,4-d]1,3-dioxolen-5-yl-N-({[3-(trifluoromethyl)phenyl]amino}carbonyl)-carboxamide in Table 12.

**Conclusion**

Entry of the amendment, examination, and allowance of claims 44-72 are respectfully requested. Applicants reserve the right to file divisional and/or continuation applications to the subject matter canceled in response to the restriction requirement.
